CAREER SUMMARY

Aspiring Software Engineer with a strong foundation in Computer Science fundamentals (Data Structures, Algorithms). Proficient in Java, Python, and C, with a keen interest in developing scalable software solutions. Demonstrated problem-solving skills through competitive programming and an agile learning mindset. Eager to contribute to next-generation application enhancements and drive product quality.

EDUCATION

SIKSHA 'O' ANUSANDHAN <i>B.Tech in Computer Science and Engineering — 9.44 CGPA</i>	2023 – Present <i>Bhubaneswar, Odisha</i>
Kendriya Vidyalaya No.1 Angul <i>Intermediate (CBSE) — 89%</i>	2023 <i>Angul, Odisha</i>
Kendriya Vidyalaya No.1 Angul <i>Secondary (CBSE) — 94%</i>	2021 <i>Angul, Odisha</i>

PROJECTS

HackConnect — Collaborative Software Platform • Role: Frontend Developer • Designed and implemented a scalable web application for team discovery, focusing on seamless user experience and efficient data flow using the MERN stack. • Implemented an event discovery feature providing students with up-to-date information on upcoming hackathons and technical competitions. • Collaborated with a cross-functional team to define requirements, design user workflows, and deliver core features.	Ongoing
Expense Tracker — Personal Project • Developed the frontend of an Expense Tracker application to help users record and review daily expenses • Designed responsive user interfaces using HTML and CSS to display expense entries and weekly/monthly summaries • Implemented core logic using Java to handle expense input, basic calculations, and data organization. • Focused on simplicity and usability to support personal budgeting and financial discipline. • Initiated the project based on real-life student budgeting challenges, translating practical needs into a functional solution.	Ongoing

TECHNICAL SKILLS

- CS Fundamentals:** Data Structures, Algorithms
- Languages:** Java, Python, SQL
- Development Tools:** VS Code, IntelliJ, Eclipse
- Frontend Technologies:** HTML, CSS, Bootstrap

ACHIEVEMENTS

- Earned a **Scholarship at iStudio** based on top performance in the Internship Common Aptitude Test (iCAT).
- Active **Competitive Programmer** with 60+ problems solved across LeetCode and Coding Ninjas, demonstrating strong algorithmic thinking and problem-solving abilities.
- Participated in coding challenges to refine skills in efficiency and code optimization.

LEADERSHIP ROLES

- Actively assisted peers in understanding complex software engineering concepts and debugging code.
- Collaborated in team projects to review requirements and implement software specifications effectively.
